Tea Brewing Machine

Coffee Day is proud to develop a one-of-a-kind tea brewer using a unique pod technology that dispenses freshly brewed tea, like it's meant to be. The tea brewer is designed to be the best companion for Indus Coffee Machine. So whatever your favourite beverage – tea or coffee – we've got it covered.

Technical Specifications

INDUS

Length : 670 mm | Breadth : 350 mm | Height : 803 mm

Output : 120 cups / hour & 300 cups / day

Bean Hopper Capcity : 1 kg

TEA BREWER

Length : 236 mm | Breadth : 207 mm | Height : 378 mm

No. of servings / cycle : 35 | Weight : 9 kgs

Convenient

Pamper yourself with this offering in the comfort of your workspace.

Authentic

Our teas are carefully picked from tea gardens, using fresh milk to give you that authentic taste of chai.

Home-Style

The brewing technique and speed ensure that your tea tastes just as good as your favourite home-made chai!

Hygienic

The tea pod brewer boasts of reduced manual cleaning as the pod can be neatly taken out of its hanging string, unlike loose tea, which might agglutinate to the container in any other brewer. This way your tea is brewed not only perfectly, but also immaculately. A win-win!
